

Documentation of  
**SOLCAMP AWARD**

Partner:

**PEPS/ESCOS**

**Sardinia**

**Sicily (except Prov. Agriganto)**

**ITALY**

**Foto of camping site / awarding procedure:**

<b>Name of the camping site</b>	Camping Mariposa
<b>Location:</b>	Alghero ( Sardinia – Sassari )
<b>Date of awarding:</b>	17 June 2007
<b>Participants:</b>	50 persons ( project partners – owners- technicians – tourists )
<b>Short description of the system and reason for awarding:</b>	<p>17 small houses involved in the intervention have been divided in 6 groups of 3 and 4 units ( for a total of 12 users for group ) and connected to a solar thermal plant with natural circulation and a surface tapping the sun's energy of 6 square meters for each group. In detail each plant is composed by a group of 3 glazed flat collectors of 2 square meters and a store reservoir of 300 litres. 12.000 kwh are produced from solar system during the year. In terms of emission reduction of CO<sub>2</sub>, considering the Italian energetic mix equal to 0,56 kgCO<sub>2</sub>/kWh, the expected reduction is about 5 – 6 tons CO<sub>2</sub> per season.</p>
